## Additional Notes:

- Minor outside Chemistry required for this degree.
- Foreign language requirement:
- Student must take the Foreign Language Placement Test to determine starting course for the foreign language sequence.
- If Foreign Language $1010 \& 1020$ taken for prerequisite purposes, they will count in place of 6 hours of Free Electives (3 hours per course).
- FL 1030 may substitute for FL 1010 \& 1020 for some languages; FL 1060 may substitute for FL 1040 \& 1050 for some languages.
- Foreign language classes can be taken in summer semesters.
- Students are required to demonstrate intermediate-level proficiency in a language other than English. Intermediate-level proficiency is demonstrated by successful completion of a 4th-semester language course (FL 1050 or 1060 or CSD 3374). A higher-level language course that requires one of these courses as a prerequisite may also be used to fulfill the requirement.
- Placement exams are required for several languages. Should a student place higher than the beginning level, any lower level requirements listed on the four year guide will need to be replaced with a free elective if needed for total hours for the degree. Please consult with your advisor for more information.
- Note: Appalachian's language placement test is designed for placement purposes only, and a score on this test alone is not sufficient to demonstrate intermediate-level proficiency.
- Residency Requirements:
- 30 hours overall must be from ASU
- 18 hours in the major must be from ASU
- 9 hours in the minor must be from ASU
